Infrastructure asset led services

Asset neutral digital transformation services

cloud@core delivers agility, flexibility and choices for creating hybrid cloud led digital infrastructure

SIFY'S ENGAGEMENT MODELS

Client engagement is based on defined business outcome generated by IT solutions and services

Systems are owned by the client and annuity-based payout for services

No upfront investment by client and payout is based on consumption

Reduced upfront investment as client subscribes to infrastructure owned by Sify as a part of their overall infrastructure requirement

KEY ASSETS

Sify's pan India data center and network footprint enables digital transformation initiatives seamlessly. Sify equips enterprises with the power to disrupt, transform, and optimize, thereby, increasing ROI and driving business innovation.

SIFY ASSETS

- 11 Pan-India DCs with 100 MW capacity. Adjacent Hyperscale CSPs

- Largest MPLS network (by connections)
- 3100+ PoPs across 1600 towns in India

- Cloud Connect data superhighway
- 50 on-net Data Centers

- Remote Operations Centers
- NOC, SOC, Managed services

- Applications and Industry solutions
 - iTest, ForumNXT, DigitalLearning, SAP, Oracle, Microsoft and App Modernization.

- Cloudinfinite
- Enterprise Cloud grid fabric

RELEVANCE TO DIGITAL ENTERPRISE

- Hosting for Hyperscale operators
- Centerpiece of the Hybrid Cloud

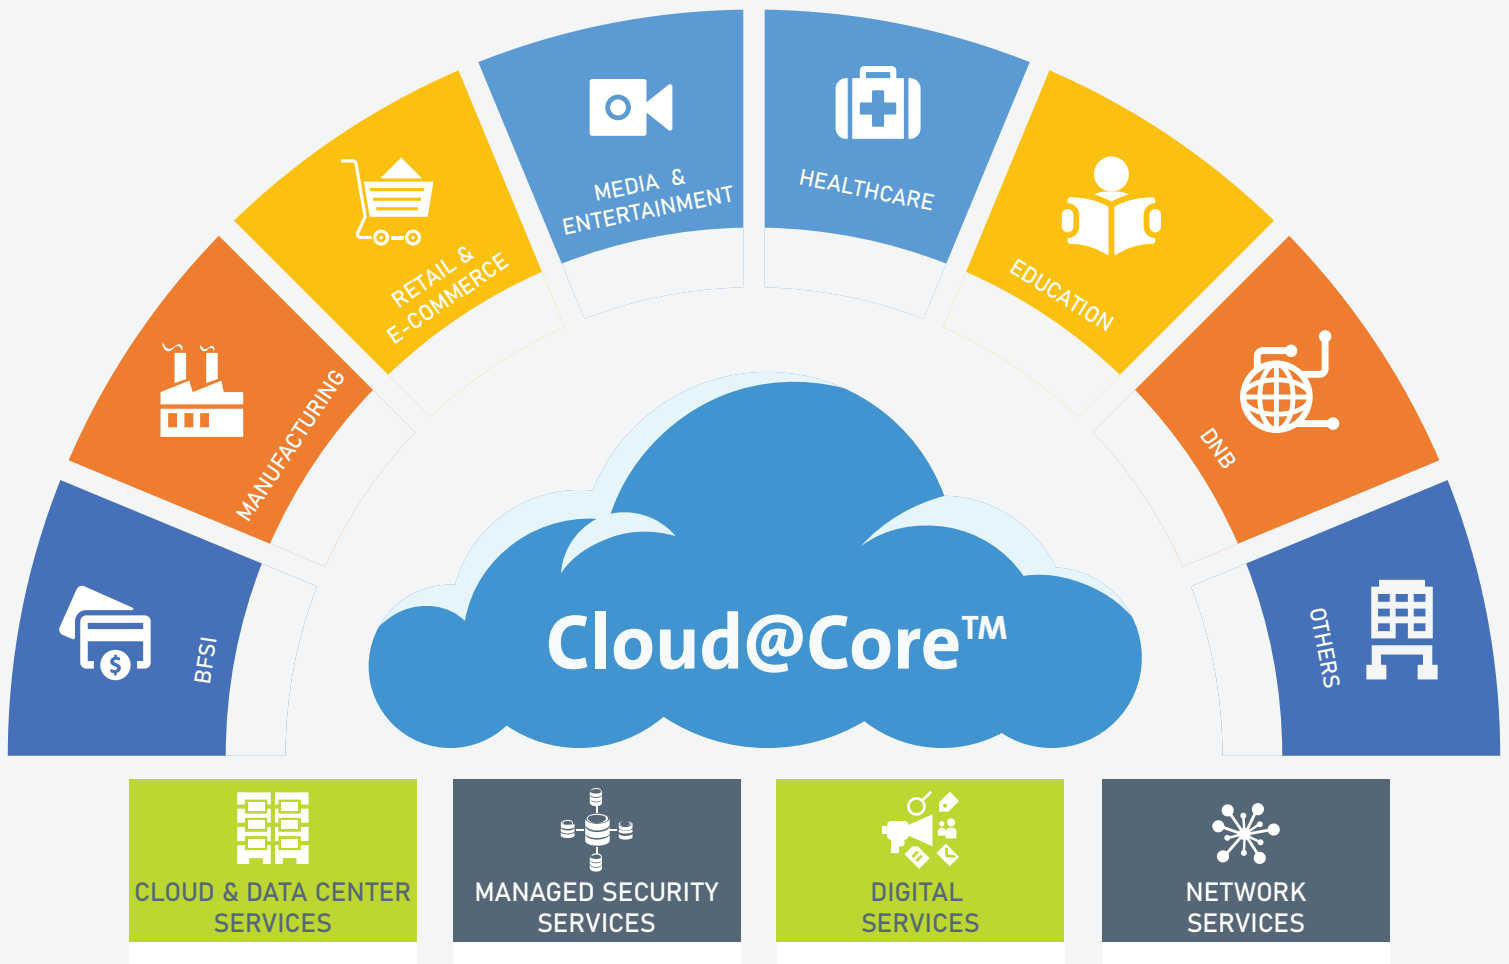

- Internet growth from non-metros
- Platform to move content to 'Edge'

- Cost-effective terabit network scale
- Interconnect Public and Private Clouds

- Global and domestic IT outsourcing
- Supports outcome-based services model

- IT-enablement for distributed businesses
- Supports Digital Transformation initiatives

- Public / Private / Hybrid Clouds
- Cost effective and pay-as-you-go model

Re-define your Cloud Strategy with Sify's Cloud@Core™ Philosophy

CLOUD ECONOMICS WITH SIFY

Engage with Sify for continual exploration of opportunities to reduce the overall costs and complexity of cloud operations.
