

Seamless Cloud to Edge Strategies: Unlocking Hybrid IT Potential in Manufacturing

Agenda

07:00 PM - 07:30 PM

Registration and Networking

07:30 PM - 07:45 PM

Introductions and Opening Remarks

07:45 PM - 08:45 PM

Roundtable Discussion

08:45 PM - 09:00 PM

Closing Remarks

09:00 PM Onwards

Dinner & Networking

Introduction

To maximize the benefits of digital initiatives across all operational areas, organizations must go beyond modernizing their core to include the edge environment. For manufacturing companies looking to migrate their ERP to cloud platforms such as Azure, the transition demands robust integration between cloud and edge operations for real-time data processing and collection.

Service providers play a crucial role in assessing the current IT landscape to proposing the best suited hybrid/multi-cloud strategy to drive innovation into key operational areas such as warehousing and logistics at the edge.

Organizations need integrated solutions encompassing connectivity, security, and managed services to ensure low latency, compliance, and efficient data analytics, and to harness AI's potential. This dual focus on cloud and edge modernization ensures that technological investments translate into tangible business outcomes and operational efficiencies, setting the stage for future innovations.

Discussion Points:

- Digital advancements in manufacturing;
- The importance of edge modernization in manufacturing;
- The imperatives for extending innovations on cloud to the edge environment;
- How to choose the right service provider;
- Sify and Microsoft Azure use cases in manufacturing.

About the Hosts

Joining the discussion today, to share insights and information on unlocking hybrid IT potential in manufacturing, are:

Jitender Durairajan

Head - Cloud Engineering and Solutions, Sify Technologies

Durairajan is the head of cloud engineering and solutions at Sify Technologies. He has more than 22 years of experience in cloud practice, cloud-neutral technical advisory, product engineering, enterprise solution architecture, hybrid cloud delivery and IT operations.

Manikannan Shetty

CRO South, Sify Technologies

Shetty is CRO South at Sify Technologies. With more than 20 years of experience in digital adoption, client relationship management and revenue optimization, he has helped exceed revenue targets and expand market share.

Kannan Sasikumar

Regional Business Development Head, Cloud and IT Managed Services, Sify Technologies

Sasikumar is the regional business development head, cloud and IT managed services at Sify Technologies. He is an experienced business leader with experience in cloud computing and cybersecurity and has the ability to enhance complex infrastructure solutions.

About the Sponsor

About Sify

Sify is a leading integrated ICT player in India, helping customers to achieve their digital ambition through Cloud@Core products and services, built on its world-class data center, cloud, network assets, and a wide portfolio of professional and digital services.

About the Moderator

Leading the discussion today is:

Brian Pereira

Senior Director - Editorial, ISMG

Pereira has nearly three decades of journalism experience. He is the former editor of CHIP, InformationWeek and CISO MAG. He has also written for The Times of India and The Indian Express.

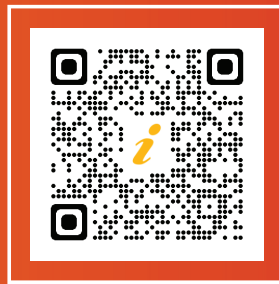

Notes

About ISMG

ISMG is the world's largest media organization devoted solely to cybersecurity and risk management. Each of its 38 media properties provides education, research, and news that is specifically tailored to key vertical sectors including banking, healthcare, and the public sector; geographies from North America to Southeast Asia; and topics such as data breach prevention, cyber risk assessment, AI, OT, and fraud. Its annual global summit series connects senior security professionals with industry thought leaders to find actionable solutions for pressing cybersecurity challenges.
