

Seamless Cloud to Edge Strategies: Unlocking Hybrid IT Potential in Manufacturing

Agenda

6:30 PM - 7:00 PM

Registrations and Networking

7:00 PM - 7:15 PM

Introductions and Opening Remarks

7:15 PM - 8:45 PM

Roundtable Discussion

8:45 PM - 9:00 PM

Closing Remarks

9:00 PM Onward

Dinner and Networking

Introduction

To maximize the benefits of digital initiatives across all operational areas, organizations must modernize their core to include the edge environment. For manufacturing companies looking to migrate their ERP to cloud platforms such as Azure, robust integration between cloud and edge operations for real-time data processing and collection is essential.

Service providers play a crucial role in facilitating seamless connectivity, enabling cloud innovations to effectively impact key operational areas such as warehousing and logistics, which primarily operate at the edge.

By offering integrated solutions that encompass connectivity, security and managed services, service providers ensure low latency, compliance and efficient data analytics at the edge, while also maximizing the potential of AI.

A dual focus on cloud and edge modernization ensures that technological investments translate into tangible business outcomes and operational efficiencies that set the stage for future innovations.

Discussion Points:

- Importance of edge modernization in manufacturing;
- Imperatives for extending innovation in the cloud-to-edge environment;
- Choosing the right service provider.

About the Hosts

Joining the discussion today, to share insights and information on unlocking hybrid IT potential in manufacturing, are:

Harvinder Singh

Chief Revenue Officer - North, Sify Technologies

Harvinder Singh is the chief revenue officer at Sify Technologies. He has more than 25 years in leading technology companies such as EMC, HP and IBM, and has helped customers calibrate their cloud, infrastructure and network transformations over the last decade.

Aman Mehra

Head Strategy & Transformation, Sify Technologies

Aman Mehra is the head of sales excellence office at Sify Technologies. He has more than 23 years of experience in business development, customer relationship management and sales operations. He has spent the last 19 years in Sify Technologies, transitioning from a salesman to a salespreneur.

Sandeep Bandivdekar

Director - Services Partners, Cloud Sales & Solutions, Microsoft

Sandeep Bandivdekar is the director of mainstream services partners at Microsoft. He has more than 20 years of experience in business development, cloud computing and vendor management. He is adept at managing the profit and loss of cloud service sales and solutions and consumables business.

Nishant Tyagi

Partner Technology Strategist, Microsoft

Nishant Tyagi is the partner technology strategist at Microsoft. His areas of expertise include digital transformation, IT strategy and technical infrastructure. Previously, he worked as a support engineer and partner technical advisor for Microsoft India (R&D).

About the Sponsor

About Sify Technologies

Sify Technologies is a leading integrated ICT player in India, helping customers to achieve their digital ambition through Cloud@Core products and services, built on its world-class data center, cloud, network assets, and a wide portfolio of professional and digital services.

About the Moderator

Leading the discussion today is:

Rahul Neel Mani

Vice President - Community Engagement and Editorial, ISMG

Neel Mani is responsible for building and nurturing communities in both technology and security domains for various ISMG brands. He has more than 25 years of experience in B2B technology and telecom journalism and has worked in various leadership editorial roles in the past, including incubating and successfully running Grey Head Media for 11 years. Prior to starting Grey Head Media, he worked with 9.9 Media, IDG India and The Indian Express.

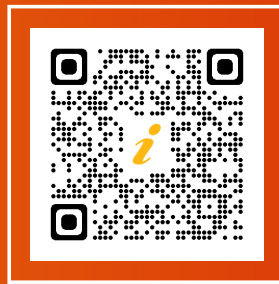

Notes

About ISMG

ISMG is the world's largest media organization devoted solely to cybersecurity and risk management. Each of its 38 media properties provides education, research, and news that is specifically tailored to key vertical sectors including banking, healthcare, and the public sector; geographies from North America to Southeast Asia; and topics such as data breach prevention, cyber risk assessment, AI, OT, and fraud. Its annual global summit series connects senior security professionals with industry thought leaders to find actionable solutions for pressing cybersecurity challenges.
